

recognition will be made, and the recurrence of a similar event rigidly guarded against for the future.—*Traveller.*

THE STEAMSHIP GEORGE—VESP LAW AND CURE—MORE CALIFORNIA GOAL DIVE.

The United States Steamship George, Capt. D. P. Porter, commander from Boston, the Havana, in three days and two hours, with ninety-three passengers and three hundred thousand dollars worth of mail, arrived at New York on Monday.

The Georgia sailed from Chagres on the 12th March, with 120 passengers for New York, arrived off Havana on the 31st, was detained until the 4th of April, owing to the failure to meet the Falcón at Havana, the latter bound to Chagres with four hundred passengers.

The frigate Harriet, Commodore Parker, former Flint, and surveying schooner, were at Havana. The Harriet was bound for Philadelphia in a day or two.

The steamer Isthmus was reported as being arrived at Valparaiso.

The Chagres was reported as having been lost in Havana, thirty soldiers having died suddenly, but on examination, it was found they had been poisoned.

The Georgia sailed, Senior Montalvo who had taken passage in the Georgia, was arrested on board by order of the Governor General and taken to the shore. It appeared afterwards that Senior Montalvo had papers showing him to be a naturalized citizen of the United States. But as he did not speak the first to the officers of the government, he was detained with the guard sent after him.

Serena Santa T. Telen, whose husband was suspected of liberal feelings, was sent as a passenger in the Georgia, banished from the island by order of her Majesty, Queen of Spain, and joins her husband in New York.

TOKEN FOR DR. PARKMAN.—The token referred to by the Attorney General during the trial, as resembling Dr. Parkman, is said to be Mr. T. of Springfield, Mass., who was in the city on the 2d November, and was approached by several on that day, and addressed him as Dr. Parkman, in view of discovering their mistake, and passed on. It is also stated a lady whom he did not know referred to him in Green st., that after-

PLATTBURGH VOLUNTEERS.—We regretted to learn from the Globe that the present session of Congress has been had, in the House of Representatives, on the memorials of the Plattsburgh Volunteers in this state, King, from the committee on military affairs, reported, on the 28th ult.,

that the mortality of the islands is about 8 per cent—in a population of 80,000, the deaths, according to the last census, exceeded the births, by 6,455—

says that the mortality is not owing to the introduction of diseases by foreign sailors, and adduces, in proof, that the mortality has been greatest at Molokai, where foreign vessels scarcely ever touch.

On the 25th of January the King gave an audience to the United States consul, the officers of the United States schooner Ewing and others of the United States army and navy.

The islands are henceforth to have a monthly sealed mail direct from the London post office.

The Polynesian continues to comment with severity upon Mr. Ten Eyck's conduct.

The people of Honolulu had subscribed \$250 for the family of a Mr. Holden. Their mother died while the father was in California. The mission families had taken care of the children among them.

A regular list of schooners was to be established between Honolulu and San Francisco, by Macdonald & Co., of the latter place.

At the January term of the Superior Court, three persons—Henry Correll, F. Howland, and James Van Dyke—were tried for setting fire to the American whaling ship Dover. The jury decided that the case was out of Hawaiian jurisdiction. The prisoners were handed over to the American consul for transmission to the United States.

The bill making 10 per cent legal interest in Ohio, has become a law.—The bill exempting the homestead from sale or execution has also passed that legislature.

"The Union dissolved," said Mrs. Huntington, with her specs up over her head and her cap border tremulous with the agitation of the head before she leaves the Union, and who would dare assassinate such a thing as that—such a monstrous outrage on a body's politics. I saw by the way they were going on that they would get their God in at last; and see what a terrible confusion they are in! I thought it would finally conclude so.—And if they dissolve the Union which we still have the children? or if they let 'em grow up wagabones without the fostering care of parents to look after their train? Never think of dissolving it, I should say.—

What God has joined together, man put asunder, is gospel truth, and I should like to see any body that says such—I should.—[Prae*dictor*.]

It is stated that the body servant of Mr. Calhoun died on Sunday evening, a few hours after the decease of his master.

Ten deaths from Cholera lately occurred on board steamer George Washington, during her trip from New Orleans, to Louisville.

Father Mathew was at New Orleans at latest accounts, and had addressed large audiences at the Cathedral in that city.—He is well received wherever he goes.

Abbott Lawrence, our Minister to England has written to the American Institute in New York, in reference to the World's Fair, which is to be held in London next year. Mr. L. expresses his belief that we can surpass every other nation with our nations, and calls upon his countrymen not to be backward in their preparations for the great display.

Mr. John Franklin, We are indebted to Mr. John Randall, for merchant of water, for the following information, forwarded by agent or correspondent at St. Paul, Minnesota.

St. Paul, Minnesota, March 12. A dog train arrived here yesterday, from some distance from Lake Superior, bringing news that an American vessel had been seen near the Indians, and had sent letters saying that Mr. John Franklin was found. The Indians cannot learn. However they say

The writer of the letter is a brother of Mr. Franklin, and we have seen the letter containing the intelligence. Both are gentlemen of high respectability. He writes by every mail, that we have through his letter the most recent news. Our former services at St. Paul from his settlement, which he quite deservedly received from the Lake Superior.

We are pleased that the information is

CALIFORNIA, OREGON AND SANDWICH ISLAND NEWS.

The steamship Cherokee, Capt. Wm. H. Pendleton, New York on Friday morning, at an early hour, having made an unusually short passage from Chagres. The Cherokee brings \$1,158,818.38 in gold on freight, and \$600,000, among passengers. Total \$1,628,818.38.

The steamship Empire City, Capt. J. D. Wilson, arrived at New York on Friday. The Empire City left New York on the 16th of March, and anchored off Chagres at 11:12 A. M. on the 24th ult. There is a very large amount of gold dust in the hands of passengers, estimated at near one million of dollars.

The Tennessee arrived at Panama on the 12th of March, and expected to sail for California on or about the 27th or 28th Feb. 26th, in coming out of Valparaiso the Tennessee met the Sausalito, going in, and she was expected to arrive about the 28th or 30th of March, at Panama.

The "squatted disturbance" has not subsided, although after much orgaizing, many inflammatory meetings, and a goodly amount of speculating on both sides, the whole difficulty remains just as indistinct and distant from adjustment when it commenced. The squatters claim right to the unoccupied lands, whether included in the city survey or otherwise. They are incited, no doubt, to party consolidation and the action with which they have received public measures, more by men whose aims are selfish, and whose negotiations are dishonest, than by leaders of dispassioned feeling, and calm, reflecting judgment.

The anti-slavery party is the more numerous and yields a greater influence, not that it is destitute of headstrong and unprincipled men, but men of energy and stamina swell its ranks, in whose hands the true interests of the place are safe."

The propeller Chesapeake arrived at Acapulco on the 10th of February, and remained some 18 days, to arrange her machinery. She had not arrived at San Francisco on the 1st of March.

The U. S. ship Falmouth, Capt. Peterig, was at Mazatlan on the 30th of March, to sail on a cruise in a few days.

Midshipman Tabbs, attached to the Falmouth, was murdered while on shore, a few evenings previous, in company with some officers from the ship. By whom the murder was perpetrated, could not be ascertained. The party with whom he was in company were returning from a concert, and when near the mole, wherefrom the ship was in waiting, they missed the deceased, and on retracing their steps a few yards, they found him lying on the sidewalk, quite dead. His skull was found to be badly fractured, apparently by some blunt weapon.

Great excitement prevailed with regard to it, and a correspondence was taking place between Capt. Pettigrew and the authorities of Mazatlan. The latter had pledged themselves to do all that was in their power to discover the murderer.

PANAMA.—A bad state of feeling existed at Panama between the natives and the Americans. On the night of the 13th ult., a young American named Thomas Finnigan was assaulted by about fifty armed Spaniards and natives, who shot him through the shoulder. Several other Americans had been seriously injured by blows from clubs and stones, given by whites who would waylay them in the dark at different times. The Panama Star called upon all Americans to be on their guard and protect themselves. These outrages were probably induced by the disorderly conduct of some lawless Americans.

A lot of Bank Bills, in pieces, representing the value of several hundred dollars, were lately found among the stock of the paper mills in West Newton.

CHANCE FOR A SON OF TEMPERANCE.—The School Journal contains the following advertisement: "Wanted immediately, a man to take care of a pair of horses of temperate and indusious habits."

FOOTLINE SLIPPING THROUGH THE FINGERS.—A letter received in Salem this week, gives an account of an accident which must have occasioned a severe disappointment to the subject of it. A digger who had brought from the mines twenty-five pounds of gold, carried it in a tin pail to the vessel on which he had taken passage for home. By some misstep, or other mischance, most unluckily it slipped from his hand, over the ship's side, and went to the bottom, in fifty feet of water, leaving the poor digger minus his fortune.—*Salem Gazette.*

THE MEDICAL STUDENT STORY.—A rumor has been for some time in circulation, that a medical student saw Dr. Webster standing over the dead body of Dr. Parkman, in the Medical college in Grove street. The story has found its way into many of our newspapers, connecting with the name of Dr. Edward Beecher, of this city.—

We have made inquiry of him and learned that he accidentally came into possession of the following fact, under an injunction of secrecy: A gentleman in the vicinity of the Medical College, saw a light in Prof. Webster's room, on Friday night, the 23d of November. It being unusual he took his spy-glass, and saw a man cutting up a human body; supposing it to be an anatomical dissection (it being previous to Dr. Parkman's disappearance,) he took no further notice of it. Dr. B. is not fearing at liberty to conceal any thing that might be of importance in the case, interrogated the Attorney general upon a hypothetical case, and learning that the testimony would be inadmissible, pursued the matter no further.—*Traveller.*

Mr. Jonathan C. Dexter, We are indebted to Mr. John Randall, for merchant of water, for the following information, forwarded by agent or correspondent at St. Paul, Minnesota.

St. Paul, Minnesota, March 12. A dog train arrived here yesterday, from some distance from Lake Superior, bringing news that an American vessel had been seen near the Indians, and had sent letters saying that Mr. John Franklin was found. The Indians cannot learn. However they say

The regular weekly meetings of the Knights of Columbus, No. 25 S. of T., will be held at the Old Palace Hotel, on Thursday evening, commencing at 7 o'clock.

W. F. STODDARD, W. F.

W. F. ELLIOTT, R.

NOTICE.

At the County Common School Corporation, held in West Rutland, the Town Supervisor, Capt. Wm. H. Pendleton, and Fred Haven, appointed a committee to call together the Board of Town Superintendents of Rutland County to meet the books to be used in the schools during the present year. The superintendents are therefore requested to meet at West Rutland on Thursday April 25th at 10 A. M. A teachers institute is to be held at Rutland on the 22nd of April.

JOHN A. BUCKS

For the Committee.

DIED.

In Wallingford Vt., on the 25th ult., Mr. Clark Haven, aged 60.

Mr. Haven was a very excellent man, a good, genial character, deeply poor, strictly honest, and remarkably liberal who knew him, could doubt his purity, because his life, conversation and spirit furnished the best evidence in his favor. He was a kind and indulgent father and an affectionate husband.—Mark the perfect man and wife he left behind.

The proprietor of this house sends his sympathy.
